Online Voter Registration

Click and Mail allows eligible Wisconsin voters to register to vote using the [My Vote Wisconsin](#) website.

How It Works

Voters answer a series of questions to gather their voter registration information, and Click and Mail generates a completed EL-131 form that the voter can print to mail in or drop off at the Village Clerk's office, or provide at their polling place on Election Day along with a proper Proof of Residence document. A list of [acceptable Proof of Residence](#) documents is available for reference.

Click and Mail will give the voter the correct instructions on how to submit their voter registration form which includes how and what to include for Proof of Residence.

The voter registration information the voter enters into Click and Mail is sent to the statewide voter registration system (WISVOTE) as a pending voter application which the clerk simply processes once they receive the signed paper form and proper Proof of Residence document. The same website can also be used to check absentee ballot status or to see who your elected officials are.
